DESCRIPTION																																																														
Material	Polyester																																																													
Length	Long: 1 1/8" maximum panel thickness																																																													
Terminal Type	3 Screw Tab																																																													
Back Up Nut	Brass																																																													
Face Nut	Knurled black plastic w/rubber cap																																																													
Hole Size	7/8"																																																													
Rated;																																																														
Ignition	15 Amp @ 12v DC																																																													
Solenoid	30 Amp @ 12v DC																																																													
DESCRIPTION																																																														
Material	Polyester																																																													
Length	Long: 1 1/8" maximum panel thickness																																																													
Terminal Type	3 Blade																																																													
Back Up Nut	Brass																																																													
Face Nut	Knurled black plastic w/rubber cap																																																													
Hole Size	7/8"																																																													
Rated;																																																														
Ignition	15 Amp @ 12v DC																																																													
Solenoid	30 Amp @ 12v DC																																																													
DESCRIPTION																																																														
Material	Polyester																																																													
Length	Short: 5/8" maximum panel thickness																																																													
Terminal Type	3 Screw Tab																																																													
Back Up Nut	Brass																																																													
Face Nut	Knurled black plastic w/rubber cap																																																													
Hole Size	7/8"																																																													
Rated;																																																														
Ignition	15 Amp @ 12v DC																																																													
Solenoid	30 Amp @ 12v DC																																																													

2 POSITION CONVENTIONAL – OFF–ON–USE WITH SEPARATE STARTER BUTTON

DESCRIPTION																																																								
Material	Brass																																																							
Length	Short: 5/8" maximum panel thickness																																																							
Terminal Type	2 Screw Tab																																																							
Back Up Nut	Brass																																																							
Face Nut	Hex Chrome Face Nut																																																							
Hole Size	3/4"																																																							
Rated;																																																								
Ignition	5 Amp @ 12 VDV																																																							
DESCRIPTION																																																								
Material	Brass																																																							
Length	Long: 1 1/8" maximum panel thickness																																																							
Terminal Type	2 Screw Terminal																																																							
Back Up Nut	Brass																																																							
Face Nut	Hex Chrome Face Nut																																																							
Hole Size	7/8"																																																							
Rated;																																																								
Ignition	15 Amp @ 12v DC																																																							
DESCRIPTION																																																								
Material	Brass																																																							
Length	Long: 1 1/8" maximum panel thickness																																																							
Terminal Type	2 Screw Terminal																																																							
Back Up Nut	Brass																																																							
Face Nut	Knurled Chrome Plated w/rubber cap																																																							
Hole Size	7/8"																																																							
Rated;																																																								
Ignition	15 Amp @ 12v DC
