INSTALLATION INFORMATION

In order to affix molded vinyl snap-on cushion set to any of the above seat models, proceed as follows:

1. Seat Cushion

Affix the front snap flaps of the seat cushion first at point A, then *stretch the cushion toward the back of the seat* at point B and affix the aft snaps on that flap.

2. Back Cushion

To affix the back cushion, affix 4 snaps at top point C first, then at point D.

REVERSE PROCEDURE FOR CUSHION REMOVAL.

NOTE: Snap fasteners are placed in the roto seat shell in the proper location to assure a taut, uniform look of the cushions and may require *minor stretching* to achieve snap-on at each point.

*Dot fasteners are not included.
