

Gentle-Flow™ **Oxygenator**

Rule® Gentle-Flow™ Oxygenator Kit

NEW! Livewell/Baitwell Kit With Patented Infusor Technology

- ✓ Produces millions of microfine bubbles with patented infusor technology
- ✓ Directional discharge
- ✓ Flexible installations for most custom tanks
- ✓ Flow control with "Air Control" center
- ✓ Removable cartridge motor for quick replacement
- ✓ Gentle flow reduces harmful turbulence

Model 255.....700 GPH (2649 LPH)
 Model 256.....1100 GPH (4164 LPH)

PATENTED INFUSOR TECHNOLOGY IS CURRENTLY BEING USED IN OVER 1000 CATCH AND RELEASE TOURNAMENTS

Rule® has expanded its livewell offerings by adding the Revolutionary Gentle-Flow™ Oxygenator Kits. Designed with the patented infusor technology and a Gentle-Flow directional discharge, the Rule Gentle-Flow Oxygenator is the ideal system for keeping bait and catch alive and healthy. The patented infusor technology introduces air into the base of the livewell pump through the air control center producing millions of micro-fine bubbles. Because the bubbles are so small, they remain suspended in the water longer providing more aeration to your delicate bait and catch.

The Gentle-Flow discharge allows the micro fine bubbles to pass gently into your livewell tank, thus reducing harmful turbulence. The patented infusor technology is currently being used in over 1000 catch and release tournaments throughout the world. Designed to fit almost any custom tank, the Gentle-Flow Oxygenator kits are available with our 700 GPH pump, **Model #255** (up to 25 lbs/11.4kg of bait) or 1100 GPH, **Model #256** (up to 50 lbs/22.7 kg of bait) and come complete with a directional discharge, intake strainer, hose and intake valve.

Millions of micro-fine bubbles
Keeps bait and catch alive longer

Flexible installation
Makes set-up quick and easy
