

MODEL 55-0405 STATIC KICKER MOUNTING PLATE INSTRUCTION MANUAL

This STATIC PLATE is designed for use with any kicker on most transoms.

1. The plate mounts to the transom with the lip resting on the top of the boat transom—Smooth side facing out.

*****IMPORTANT*****

The large flat washers included ***must be used*** to secure the plate.

These washer go under the head of the mounting bolts (not included).

2. Bolt the plate to the transom.
3. Clamp the kicker motor onto the plate.
4. Using a long 5/16" drill bit—drill from the security bolt holes in the outboards clamping brackets through the mounting plate and boat transom. Install two 5/16" bolts through the outboards clamp brackets, kicker mounting plate and boat transom with lock nuts and washer inside transom.
