## **55-0405**

### **Static Motor Mount Plate**

**If kicker motors are your thing – then our static plate is a must.**

**Applicable to both two and four stroke motors, 35hp or 263 lbs. maximum.**

**It offers a sturdy and flat mounting area for your trolling motor clamps.**

**Made of 713 cast aluminum. Yellow chromate primer and finished with a black power coat.**

**This plate also works for mounting long shaft motors on a short shaft transoms because the plate sets the motor 4" higher on the transom.**

**Overall dimensions 11.50" x 9.75" x 2". Wgt 13 lbs**

**Hole spacing: Across 6" between holes, Down 3.5" between holes.**

**Top holes are 6.5" from top of mounting plate.**

**Setback: Approx. 2"**
