

ENGINEERED MARINE PRODUCTS®

manufactures many of its fuel pumps in its headquarters just outside of Birmingham, Alabama as well as its fuel pump repair kits. This allows EMP to maintain quality control of each pump and assures that pump repair kits perfectly match each pump. EMP is also the exclusive manufacturer of the **VRO System Replacement Pump** (1399-07359), a non-oiling fuel pump for 90-250 HP v4/v6 crossflow and looper* engines.

* The VRO System Replacement Pump will not fit 60° application
