Fuel Pump Assembly Kit P/N 391667

Preface

This fuel pump assembly with revised outlet direction, permits rerouting of fuel pump to carburetor hose to eliminate interference between hose and upper motor cover assembly.

Contents of Kit

Description	Qty.
Fuel Pump Assembly	1
Gasket	1
Screw-Fuel Pump to Cylinder	2

1. Install fuel pump using new gasket and mounting screws supplied.
2. If fuel pump being replaced has a spacer between pump and engine, it should be discarded and not used during installation of new pump.
3. The outlet nipple on new fuel pump is different than that on fuel pump being replaced. A shorter hose is needed between pump and carburetor. Cut old hose to 8½" or cut new fuel line from roll 319733.

Product Reference & Illustration

When reference is made to a brand name, product or specific tool, an equivalent product may be used in place of the referred to product unless specifically stated otherwise. Equivalent products which are used must meet all current U.S. Coast Guard Safety Regulations and ABYC-BIA Standards to avoid hazards.

All photographs, illustrations, and specifications used may not necessarily depict actual models or equipment, but are intended for reference only based on the latest product information available at the time of publication.
